

PRESS RELEASE  
FOR IMMEDIATE PUBLICATION  
March 22, 2010

### **A NOTABLE ADDITION TO THE CONCERTO WINDOW BANNER**

Royal Group Inc. is pleased to announce the addition of Extreme Window and Entrance Systems to the Concerto Eco-Window™ Program. Extreme Window and Entrance Systems, located in Moncton, will assemble, promote and sell the Concerto Eco-Window™ systems through their extensive network located in all Atlantic provinces. Extreme has close to 50 distributors under the Extreme and Solarseal banners.

Concerto Eco-Window™ systems achieve the highest energy savings rating in the industry, making them ideal for use in the construction of ENERGY STAR® qualified fenestration products. Advanced testing has also shown that Concerto systems remain as airtight at -30°C as they are at room temperature.

A Spring advertising campaign including radio and TV spots in main stations was introduced at the ABSDA Show on February 25<sup>th</sup> and 26<sup>th</sup> in Moncton to support the launch of the Concerto Eco-Window™ program.

The addition of Extreme is part of Royal Group's Window and Door Division's strategy to increase the access to our Concerto Eco-Windows™ in the Maritimes.

Extreme Window and Entrance Systems has been a customer of Royal Group's Royal Window and Door Division since 2005.
